

Feedback from Thematic Partnerships: June 2008

Thematic Partnership			
Environment & Transport Partnership			
Main Aims of the Partnership			
<i>These are in the process of revision.</i>			
•			
Emerging Priorities			
How can you make a difference?	1		
	2		
	3		
Links to Hampshire Local Area Agreement Priority Outcomes			
LAA Priority:	3	Improve the co-ordination of transport and access to services across the county. <ul style="list-style-type: none"> • Increase the range of services that are accessible. • Remove non-transport barriers to access by improving the design and delivery of services and facilities. • Improve transport by smarter use of existing services and pooling of vehicles. • Pilot studies to be undertaken. 	
	7	Use material resources more efficiently. <ul style="list-style-type: none"> • Reduce construction waste by substitution of recovered materials in new build development and major refurbishment. • Increase recycling in the non-municipal sector. 	
Progress since March 2008			
<p>The Partnership agreed at its meeting on 13 May to redefine the partnership to focus on environmental sustainability and transportation issues. A new name and purpose for the partnership was agreed but discussion would continue by e-mail before the next meeting on the new Terms of Reference following circulation of a revised draft. A revised list of organisations for membership, to reflect the new focus on environment and transport, was also agreed with new representatives to be invited to the next meeting. New key priorities would be discussed at the next meeting. These would be likely to centre on what the Partnership could achieve through lobbying and influencing others to take action and through networking with the other Partnerships.</p> <p>In order to progress the new Environment & Transport Partnership's input to the Sustainable Community Strategy an additional meeting would be arranged for a date to be confirmed in late June.</p>
